## Blaise Requirements

Please check the type of license and specify the number of developers and application users below.

**Application Users** refers to the number of workstations and/or laptop computers upon which or from which a Blaise application is accessed for interactively collecting, entering, editing or reviewing data using any combination of the Data Entry Program, Manipula, or other provided or user developed software that uses prepared ("compiled") Blaise data models or instruction files. All other usages of Blaise fall under Developers and Other Uses.

**Developers and Other Uses** refers to all uses of the Blaise system not included under Application Users above. This includes but is not limited to those who use the Blaise software for: creating, debugging, and preparing ("compiling") Blaise applications using the Developer's Environment; use of Blaise to analyze survey data; batch processing of data using Blaise; the use of Blaise to manage survey processes (other than by application users), including CATI supervisors; and any other uses of Blaise not defined under Application Users. Web-usage with or without BlaiseIS is priced separately.
