

The View from Above

Virtual Listing Using GIS

Listing commercial buildings for surveys poses a variety of challenges that can lead to high labor costs and schedule delays. Westat's Virtual Listing System (VLS)—based on GIS technologies—addresses these challenges, providing better quality data less expensively and more efficiently.

Challenges of On-the-Ground Listing

Benefits of Westat's VLS

Standardized
feedback to
listers

Better, more
complete street
addresses

Increased
accuracy on key
analytic variables

Storage of
relevant building
information
& enabled
continuous review

Ability to calculate
square footage
automatically

Centralized
communication

Why Use Westat's VLS?

Reduced costs

Reduced time

More accurate data
